

Frequently asked questions

Can an individual apply?

Yes, if they live or work within our common bond. An individual can demonstrate meaningful personal benefit without needing to reach a large number of people.

Can I apply in more than one window?

No. Only one application per person or organisation is permitted during each financial year, from 1 October to 30 September. Contact us to correct or add information to an existing application.

Can a previous recipient apply again in a new financial year?

Only if at least 12 months have passed since receiving funding and they have not already applied in that financial year. Both rules apply.

Can different teams within one club apply separately?

No. The application limit applies to the whole organisation, including its teams and sections.

What happens if more information is needed?

We may contact you before assessment. The four-week target starts when we have a complete application. We will explain what is needed and let you know if the target date changes.

Does closing a window stop processing?

No. It pauses new applications. Those already received continue through assessment and payment.

Can I apply for something that has already started?

For an event, project or activity, please apply before it starts and allow time for a decision and payment. Applying does not guarantee funding.
